Hi Warren!

No testimonial I can give will do justice to what you brought to our Annual Franchise Partner Conference this year. I had the highest of expectations after booking you and completing the pre-event call yet you absolutely blew those expectations out of the water. I believe you received the only standing ovation of our three day event because you went out of your way to customize the message not only based on the details I'd given you earlier but also on the information you gleaned from attending several sessions earlier in the day. I have never seen a more captivated and inspired audience or a more dedicated speaker.

Thanks Warren for helping to make this our highest rated conference yet!

Yours truly,

David Christopher
