To Whom It May Concern:

Recognizing that the RCMP organization is undergoing significant change, the Pacific Region Training Center's June 2009 POWPM theme was "A Vision for Change". Warren MacDonald was our key speaker for the event. His story of challenge, perseverance, determination, tenacity, and courage was inspirational and moving. Months after our POWPM, PRTC personnel are still talking about him.

Warren MacDonald spent considerable effort to understand his audience with the result that his presentation was relevant for our organization. The presentation was delivered with humor and wit. Warren MacDonald is an extraordinary speaker with a powerful message of the positive nature of change. His message is thought provoking, informative, and inspirational.
